SAMPE Seattle Virtual Chapter Meeting - Tuesday, Jan. 12th!

For our January event, the Puget Sound Chapters of ASMI and SAMPE will jointly hosting a panel on Advanced Composites for Structural Applications focusing on how to overcome current barriers. The panelists are **Prof. Paul Lagace** (MIT), **Pete George** (Boeing), and **Josalent Villegas** (Solvay). **Luis Leon** (ASMI) will be the moderator.

Please join us for our first virtual event of 2021!

***** **Please RSVP by Monday, January 11th!!!** *****

Title: Advanced Composites for Aerospace Structural Applications: Barriers to Increased Implementation and Possible Approaches to Solutions

Date: Tuesday, January 12th, 2021 via Zoom (link provided at RSVP)

Time: Social gathering: 5:30PM; Panel: 6:00PM - 7:30PM (PST)

RSVP: [Send an email to PSASMnewsletter@gmail.com](mailto:PSASMnewsletter@gmail.com)

[Vectorply Corp.](#)

and David H Sutherland. Topics varied from product development to commercial applications, composite lifecycle, and certification of composite materials and processes. Roughly 30 people were in attendance for the presentations, ranging from students to members with 10+ years.

SAMPE Loses a Seattle Chapter Legacy

Last month, a long-time member of our SAMPE family, John Hoggatt, passed away. In addition to achieving the honor of SAMPE Fellow and serving as a SAMPE International President, he was particularly active with our local chapter. He served on the board and was personally key to the strength of the Seattle Chapter for many years. From planning and running numerous conferences to mentoring and recruiting members, John was a passionate advocate for SAMPE. John will be greatly missed and his legacy will live on forever. A copy of his obituary will be available in the coming days on the SAMPE Seattle Chapter [website](#).

In his honor, a SAMPE Seattle Chapter student scholarship fund will be established in John's name - if you are interested in donating, please mail a check to:
