

SAMPE Seattle Chapter

Society for Advancement of Material and Process Engineering

December 29th, 2020

SAMPE Seattle Sponsors and Friends:

The Seattle Chapter is one of the most active chapters in North America. In 2019, our chapter hosted a number of local events, including student outreach activities, technical presentations, social events, and a tour to Alaska Airlines Maintenance Facility. In addition, we hosted our first SAMPE Seattle golf tournament! We are on track to sponsor the conference when it returns to Seattle in 2020. We have an exciting 2020 planned with interesting technical programs, PSME in February, SAMPE Student Night in April, Crab Feed in July, and the second annual golf tournament in August.

In addition to underwriting the Seattle Chapter costs, sponsorship fees are used to support our five student chapters: Western Washington University, University of Washington, Washington State University, University of British Columbia, and Edmonds Community College. The Seattle Chapter has more student participation than any other chapter in the nation.

The SAMPE Seattle Chapter is fortunate to have a strong backing from our sponsors. Sponsors provide both a financial resource as well as diversity to our organization. We ask our current sponsors to continue supporting our chapter activities during 2020. We also invite anyone interested in sponsorship of the Seattle Chapter to consider the benefits:

- Your company advertisement will appear in the nine issues of the Seattle Chapter newsletter. Our newsletter is distributed in a timely manner to all chapter members, sponsors, and interested parties.
- Sponsors may choose to have a tabletop display at the annual Puget Sound Materials Expo (PSME) to be held **February 25th, 2020** at the Museum of Flight in Tukwila, WA. In 2019, there were 28 exhibitors and over 150 visitors.
- Your company will be listed as a sponsor on our chapter web page, www.sampeseattle.org. A banner and your company web link will be displayed.

Sponsorship fees for one year are as follows:
